

CONSERVATION INCENTIVE PROGRAM SUMMARY

Energy Audits and Retrofits*

**Recent energy audit report must recommend energy retrofit for that retrofit to be eligible for a CIP incentive with the exception of LED lights, programmable thermostat, ceiling fan and room air conditioner.*

- Walk through energy audit: \$50
- Full diagnostic energy audit (blower door test and thermal scan): \$450
- Post retrofit energy audit (blower door test and thermal scan): \$250
- Attic or wall Insulation: \$2.00 per square foot
- Crawl space/basement foam insulation: \$2.00 per square foot
- Crawl space/basement vapor barrier: \$1.40 per square foot, not to exceed \$1,500
- Windows: \$100 per Energy Star window
- Window sealing: \$20.00 per window
- Furnace/air conditioning: \$1,000 furnace, \$250 central air conditioning
 - Furnace AFUE Ratings must be 96% or higher
- HVAC tape sealing: up to \$200
- Water pipe and water heater insulation: up to \$200
- Exterior door replacement: \$100 per Energy Star qualified door
- Exterior door sealing: \$20 per door
- LED lights: Up to \$500 per household. Based on pre-tax purchase of lights on receipt.
- Energy star qualified ceiling fan \$25
- Energy star qualified room air conditioner 10% of pre-tax purchase price
- Programmable thermostat: \$250 per unit including installation.

Residential Renewable Energy Incentives

- Solar energy: 30% of total cost up to \$2,500
- Geothermal energy: 30% of total cost up to \$2,500
- Wind energy: 30% of total cost up to \$2,500

Auto Incentives

- Purchased vehicle with a fuel economy of 40 MPG highway or higher: \$2,000
- Purchased vehicle with a fuel economy of 45 MPG highway or higher: \$2,500
- Purchased full electric vehicle: \$3,000
- Leased vehicle with a fuel economy of 40 MPG highway or higher: \$1,000 rebate
- Leased vehicle with a fuel economy of 45 MPG highway or higher: \$1,250 rebate
- Leased full electric vehicle: \$1,500 rebate

Indoor Air Quality Incentives

- Carbon monoxide detectors: 1 per 1,000 square feet of home
- HEPA furnace filters: 100% of cost for up to 3 filters per year, not to exceed \$100
- Energy Star qualified bathroom exhaust: \$400 per bathroom per qualifying residence per 5 years
- Air quality home audit: limited to the GLT service area, must be performed by GLT staff
- Mold testing: 100% of cost, not to exceed \$200; must be completed by GLT staff within the GLT service area
- Radon mitigation for homes with measured 4 pCi/L radon gas: 50% of cost not to exceed \$1,000

Water Conservation:

- Up to 3 water sense showerheads per qualifying residence: \$30 per unit
- Up to 3 water sense toilets per qualifying residence: \$300 per toilet
- Up to 2 rain barrels per qualifying residence
- Septic inspection and pumping: \$350 once every 3 years
- Drinking water testing for bacteria, nitrates, nitrites, dissolved solids, pH, lead, copper, sulfates, hardness, arsenic, fluoride, iron, manganese, sodium and zinc
- Water purification systems: 50% of total cost not to exceed \$1,000 for residences that have completed and reviewed drinking water testing

Residential Appliance Rebates

Incentive listed below

- Energy Star Clothing Dryer: 50% of the pre-tax purchase price
- Energy Star Clothing Washer: 75% of the pre-tax price
- Energy Star Water Heater: 50% of the pre-tax purchase price
- Energy Star Tankless Water Heater: 75% of the pre-tax purchase price

Incentive based on percent better than federal minimum for energy use and pre-tax purchase price.

- Energy Star Freezers – chest, upright
- Energy Star Dishwashers
- Energy Star Dehumidifiers
- Energy Star Refrigerators

In no instance will a Conservation Incentive Program (CIP) incentive total more than 100% of the purchase price or cost of an item or service. All incentives are subject to all conditions detailed in the CIP policies.
